Note : # : Reporting area for land utilization statistics is the sum of land under forests, area not available for cultivation, other uncultivated land excluding fallow land, fallow land and net area sown.

: Area not available for cultivation is the sum of area put to non-agricultural uses and barren & uncultivable land.

* : The figure related to area under forest, other categories of land use, net irrigated area, gross irrigated area, net area sown and area under crops as the case may be, are taken from latest forestry statistics publication, agriculture census or are estimated based on latest available year data received from the state/uts respectively.

Figures of 1999-00 to 2004-2005 are Provisional.
