

DISTRICT LEVEL TRAINING PROGRAMME ON INTEGRATED NUTRIENT MANAGEMENT UNDER ATMA WEST SIANG COMPLETED

Basar, 1st Sept., 2014: A district level training programme on “Integrated Nutrient Management for Higher Production and Productivity in Rice” was conducted by KVK West Siang, ICAR Research Complex for NEH Region, A. P. Centre, Basar under ATMA West Siang from 30th-31st Aug., 2014. Shri A. Kirankumar Singh, Asst. Chief Technical Officer & i/c Programme Coordinator presented power point on “Soil Health and Nutrient Management” and “Importance of Integrated Nutrient Management for Higher Production and Productivity in Rice” and Miss Wangnem Rekhung, Prog. Asst. (Soil Science) delivered her lecture on “Concept and Principle of Integrated Nutrient Management” on the first day. The training was inaugurated by Dr. Rajesh A. Alone, i/c Joint Director and suggested the farmers to grasp the technical knowledge from the training programme and apply in their respective fields followed by distribution of a booklet on “Centrally Sponsored Agricultural and Rural Development Schemes for the Farmers of North East India”. On the following day a practical demonstration on weeding by cono weeder in the field of Smt. Gobom Basar of Gori-I at Sire Rijo was conducted by Shri A. Kirankumar Singh and the farmers also practically operated the cono weeder and they are impressed with the performance of the cono weeder.
