

## Training programme

### “Understanding SEED and Post harvest Seed STORAGE/HANDLING and Seed Production on rapeseed”

KVK West Siang, conducted a two days training programme from 10<sup>th</sup> -11<sup>th</sup> September’ 2014 on the topic “Understanding SEED and Post harvest Seed STORAGE/HANDLING and Seed Production on rapeseed” under the sponsorship of TSP. During the inaugural session Joint Director, ICAR RC for NEH, A.P-Centre, Basar highlighted about the importance of rapeseed and discussed with the farmers the different methods of storage practised by them. Rita Nongthombam, SMS (Plant Breeding) delivered power-point presentation on how to handle the harvested seed for seed purpose, the principles of seed storage, factors affecting seed longevity in storage and how to produce truthfully level seed of Rapeseed. A Kirankumar Singh, SMS (Agronomy) interacted with the farmers regarding the package of practises of Rapeseed. Altogether 30 farmers from different Villages participated the training programme. The programme was concluded with vote of thanks by A Kirankumar Singh.
