

TRAINING PROGRAMME UNDER TRIBAL SUB PLAN CONDUCTED BY KVK WEST SIANG

A one day training programme on “Diversified Farming in *Jhum* for Sustainable Production” was conducted by KVK West Siang today the 12th March, 2014 at Soi Village under the Tribal Sub Plan (TSP) project of the ICAR Research Complex for NEH Region, A.P. Centre, Basar with 30 nos of participants. Shri A. Kirankumar Singh, I/C Programme Coordinator presented PowerPoint on the topic and discussed in details about the diversified farming in *jhum* for sustainable production followed by demonstration in the *jhum* field how the system will be practised. The participants represented the 4 Self Help Groups (SHGs) of the Village i.e. Neli Nengo Self Help Group, Soi Nyomta Self Help Group, Soil Lune Self Help Group and Resi Lensi Self Help Group. The participants had an open interaction on different aspects of *jhuming* like, soil and water conservation, weed control in *jhum*, fertility management and replacement of seed with high yielding varieties for which Shri Singh apprised them to grow Bhalum-3 which was tested for the local situation and found more productive compared to local varieties.
